PROFESSIONAL SUMMARY

Web developer with 3 years of hands-on experience building applications with Node.js and React.js, plus a background in IT Support across schools, private companies, and government offices. Comfortable owning backend work end to end: database design, RESTful APIs, network setup, and everything in between. I pick up new technical environments quickly, whether working solo or with a team.

WORK EXPERIENCE

IT Support Freelancer | PT Info Tech Support

April 2025 – Present

- Handled maintenance and troubleshooting for PCs, printers, servers, and network gear across the school.
- Managed the MikroTik and UniFi network setup, keeping an eye on system performance to keep downtime low.
- Set up a reporting system (ticketing, weekly and semester reports) to track and document IT team performance.

Backend Developer | PT Araz Inti Line (Zitline)

February 2025 – May 2025

- Built an internal IP management system on a RESTful API with Node.js and MySQL, working hybrid with a 7-person dev team.
- Designed the database schema, defined API endpoints, and tested the system thoroughly with Postman.
- Worked on the backend throughout the project and handled version control through GitHub.

ICT Teacher | SMAN 84 Jakarta

October 2024 – November 2024

- Taught 30 12th-grade students under the Merdeka Curriculum, covering software development, LAN/WLAN networking, system design (UML/ERD), and Python.
- Used simulation tools (Wokwi, Cisco Packet Tracer) and gamification to make lessons easier to follow, plus hands-on practice like cable crimping.
- Wrote the final semester exam and graded student competency.

IT Staff | Jakarta Provincial Education Office (Dinas Pendidikan DKI Jakarta)

August 2024 – October 2024

- Managed and maintained network infrastructure, including router and switch configuration for LAN connectivity.
- Handled technical support and troubleshooting for hardware, software, Windows installs, printers, office computers, routers, and switches.
- Took care of IT system administration for the division.

EDUCATION

B.S. in Information Systems | Universitas Mercu Buana, Faculty of Computer Science

2022 – 2026

GPA: 3.57 / 4.00

PROJECTS

Cerdas Hukum Legal Consultation Web Platform (Project Manager & Backend Developer)

2nd Place, PHKM 2025 & Silver Medal, UMB National Innovation Week

- Led a platform connecting clients with lawyers, wearing both the Project Manager and backend developer hats.
- Built the architecture from scratch with Node.js, React.js, and MySQL, covering the database, API, and UI.
- Ran the dev workflow with Trello for tasks, GitHub for version control, and Postman for API testing.
- Added JWT-based multi-role login, Midtrans payment integration, real-time live chat with Socket.io, and an adaptive dashboard.
- Designed a responsive interface with React.js and CSS so it works well across devices.

IP Management System, PT Araz Inti Line (Zitline)

Backend Development

- Built an IP address management system on a RESTful API with Node.js and MySQL for internal company use.
- Designed an efficient database schema and tested the API with Postman.

- Built a dashboard for real-time IP data monitoring, search, and management.

IT Support, PT Info Tech Support Jabodetabek

- Provided on-site and remote technical support for customer computers, networks, and IT infrastructure.
- Installed and configured LAN/WiFi networks, CCTV, and other security equipment.
- Ran routine preventive maintenance to keep equipment running smoothly.

ORGANIZATIONAL EXPERIENCE

Education Division Member & Head of Community Service Event Division | HIMSI Faculty of Computer Science, Universitas Mercu Buana 2023 – 2024

- Planned and coordinated student activities as Head of the Community Service Event Division.
- Spoke at new student orientation and student leadership training sessions in 2024.
- Hosted as MC for the Information Systems Program's 2023 anniversary event and a few other internal events.
